Removal of Deposits From Copyright Office

NOTICE is given to authors, copyright proprietors, and other lawful claimants that they may claim and remove before January 1, 1970, any article of the following named classes of published works deposited for copyright between January 1, 1964, and January 1, 1965, not reserved or disposed of as provided by sections 213 and 214 of Title 17 of the *United States Code* and still remaining in the files of the Copyright Office at the time of the request for their removal. The classes of published works covered by this notice are:

Books and pamphlets.

Works of art; models or designs for works of art.

Reproductions of a work of art.

Drawings or plastic works of a scientific or technical character.

Photographs.

Prints and pictorial illustrations excluding prints or labels used for articles of merchandise.

Other published works and all unpublished works are excluded from this notice.

The request for the removal of any copyright deposit should be signed by the person entitled to its removal or his duly authorized agent. Such request should identify the work by stating the title, author, copyright proprietor, registration number, and year of deposit, and should be addressed to the Copyright Office, Library of Congress, Washington, D.C., 20540.

L.C. card 6—35347

This number identifies the Library of Congress printed card for the complete series of the *Catalog of Copyright Entries*.

For sale by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C., 20402. Price of this part is given on page vi.

Preface

The CATALOG OF COPYRIGHT ENTRIES is published by authority of sections 210 and 211 of Title 17 of the *United States Code*. Section 210 provides in part: "The current catalog of copyright entries and the index volumes herein provided for shall be admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration."

The *Catalog* is subdivided into parts corresponding to the classes of material listed in section 5 of Title 17 of the *United States Code*. The table at the end of this preface shows the organization of the *Catalog*, the symbols used with the registration numbers to identify the classes, and the prices of the semiannual issues.

The record of each copyright registration listed in the *Catalog* includes a description of the work copyrighted and data relating to the copyright claim (the name of the copyright claimant as given in the application for registration, the copyright date, the copyright registration number, etc.).

Information as to changes of copyright ownership is not included in the *Catalog*, but a search of the Copyright Office Assignments and Related Documents Indexes may be requested from the Register of Copyrights. A fee for the search and report will be estimated at the statutory rate of \$3 per hour.

In the case of each registration listed, except for renewals, there has been deposited a copy or copies of the work in accordance with the provisions contained in section 12, 13, 14, or 215 of Title 17 of the *United States Code*.

For a more complete description of the contents of this issue of the *Catalog* see p. vii.

Orders, payable in advance, for all parts of the *Catalog of Copyright Entries* should be sent to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C., 20402. Orders may be placed for individual issues, as subscriptions for one or more parts, or for the complete *Catalog* at \$20 a year, and for periods of one, two, or three years. All orders should state clearly the title and the inclusive dates of the part wanted. Checks or money orders should be made payable to the Superintendent of Documents.

The Copyright Office welcomes inquiries, suggestions, and comments on the content and organization of the *Catalog*. Such communications should be addressed to the Chief of the Cataloging Division, Copyright Office, Library of Congress, Washington, D.C., 20540.

Organization of Parts

Each part listed in the following table records all current registrations in the class or classes indicated by the alphabetical symbols. Renewal registrations are listed separately at the end of each related part. The first letter of the symbol is that of the class under which registration is made; the second, if any, is a designation added by the Copyright Office for the purpose of statistical analysis. A zero immediately following the symbol, e.g., AF0, EF0, identifies a foreign work deposited under the waiver-of-fee provision (section 215 of Title 17 of the *United States Code*). Some parts also contain registrations made under other symbols if the subject matter or type of material is similar to that generally included in the part.

Renewal Registrations	39
Area List	41
Publishers Directory	107

Introduction

PART 6 lists domestic and foreign maps, atlases, and other cartographic works registered in class F, together with similar works currently registered in other classes. Works for which the subsisting copyright has been renewed are listed separately in the Renewal Registrations section.

Arrangement is alphabetical under the name of the copyright claimant. Each work is described in a main entry which includes information pertinent to the copyright claim. References lead from the names of joint claimants, authors, and other contributors to the works, from the names of publishers, and from variant forms of names.

The Area List, arranged alphabetically by area, includes both currently registered works and renewal registrations, the latter being identified by the symbol R preceding the registration number. The Publishers Directory lists the publishers of current registrations together with the latest address for each as given in the application or the work.

Each main entry for works currently registered includes, in addition to the claimant's name under which it is filed, the following items of information if available and applicable:

- 1) Title, amplified if necessary by a brief identification of the area covered by the work, and followed by any variant titles.
- 2) Names of contributors to the work.

- 3) Edition statement.
- 4) Place of publication for all foreign works; for domestic atlases and plat books the place of publication if given in the imprint on the work, unless the work is entered under the name of the copyright claimant.
- 5) Name of the first-named publisher; when the publisher is also the claimant the name is omitted.
- 6) Physical description using terms descriptive of the work, including number of pages or volumes if applicable.
- 7) Series statement.
- 8) Scale, projection, and statements of insets and other supplementary maps.
- 9) Names of authors given in the application which do not appear elsewhere in the entry.
- 10) Name of the employer in the case of a work made for hire, if so named in the application.
- 11) Information contained in the application which relates to the registration of an earlier version of the work.
- 12) Brief statement of the new matter on which copyright is claimed, preceded by the abbreviation NM, if this information is given in the application and is not already indicated in the entry.

- 13) Copyright symbol ©.
- 14) Name of the copyright claimant.
- 15) Date of publication as given in the application.
- 16) Registration number.

Whenever it is necessary to indicate a variation between the information given in the application and in the copy of the work with respect to the claimant's name or the date of publication, the data from the application are given first, followed by the phrase "in notice" and the data given in the work; e.g., © Richard Roe & Co.; 8Jan64 (in notice: 1963); F36000.

For renewal registrations, the main entry includes, in addition to the claimant's name under which it is filed, the following items of information if available and applicable:

- 1) Title, including area.
- 2) Names of contributors to the work.

- 3) Edition statement.
- 4) Brief statement of the new matter on which the original copyright was claimed, preceded by the abbreviation NM, if available in the renewal application.
- 5) Copyright symbol ©.
- 6) Date of original copyright.
- 7) Original registration number.
- 8) Name of the renewal claimant followed by a statement in parentheses, usually abbreviated, giving the basis of the renewal claim as supplied by the applicant; e.g., "John Doe & Co. (PWH)" indicates that renewal of copyright is claimed by John Doe & Co. as proprietor of copyright in a work made for hire.
- 9) Date of receipt of the renewal application or fee, whichever is later.
- 10) Renewal registration number.

Abbreviations and Symbols

The following list includes abbreviations and symbols used in this catalog with specific copyright or bibliographic meanings. Definitions are not given for abbreviations in common use.

(A)	author
a.a.d.o.	accepted alternative designation of
a.k.a.	also known as
appl.	application
©	copyright symbol
(C)	child or children of the deceased author
ca.	circa
comp.	compiled by, compiler
d.b.a.	doing business as
(E)	executor(s) of the author
ed.	edition, editor
(NK)	next of kin of the deceased author, there being no will
NM	new matter

p.	page(s)
(PCB)	proprietor of a work copyrighted by a corporate body otherwise than as assignee or licensee of the author
(PCW)	proprietor of the composite work
(PPW)	proprietor of the posthumous work
(PWH)	proprietor of copyright in a work made for hire
pseud.	pseudonym
pub.	published, publishing
(R)	renewal registration
rev.	revised
t.a.	trading as
tr.	translator
v., vol., vols.	volume, volumes
(W)	widow of the author
(Wr)	widower of the author

Registrations, January-June 1964

Class F—Maps published in the United States -----	1032
Maps published abroad -----	4
Maps and atlases registered in class A -----	50
<hr/>	
Total -----	1086
Renewals -----	80

These figures represent the number of registrations for maps for January-June 1964, but do not necessarily represent the exact number of entries in this issue of the *Catalog of Copyright Entries*. Registration figures for other classes of material may be found in the respective parts.

**These entries alone may not reflect the complete Copyright Office record pertaining to a particular work.

AREA LIST

A list of the current and renewal registrations in this issue arranged by area. It is designed to meet the needs of those who are searching for a map of a specific area. Renewal registrations are identified by the symbol R in the registration number.

The area headings consist of the names of the largest geographical or political units enclosed within the borders of the several maps. When the borders of a map do not coincide in any way with a single geographical or political unit, the name of the most significant unit contained therein is used in the heading. When a map contains three or more states comprising part of one of the geographical divisions of the United States, one of the headings which is given below in the list of "Geographical Divisions of the United States" is used. If the area shown on the map does not coincide with any of these divisions, one of the more generalized headings is used, e.g., United States, Northern. Names of rivers, lakes, and other geographical features are also included.

GEOGRAPHICAL DIVISIONS OF THE UNITED STATES

ATLANTIC SEABOARD

Connecticut
Delaware
Florida
Georgia

Removal of Deposits From Copyright Office

NOTICE is given to authors, copyright proprietors, and other lawful claimants that they may claim and remove before January 1, 1970, any article of the following named classes of published works deposited for copyright between January 1, 1964, and January 1, 1965, not reserved or disposed of as provided by sections 213 and 214 of Title 17 of the *United States Code* and still remaining in the files of the Copyright Office at the time of the request for their removal. The classes of published works covered by this notice are:

Books and pamphlets.

Works of art; models or designs for works of art.

Reproductions of a work of art.

Drawings or plastic works of a scientific or technical character.

Photographs.

Prints and pictorial illustrations excluding prints or labels used for articles of merchandise.

Other published works and all unpublished works are excluded from this notice.

The request for the removal of any copyright deposit should be signed by the person entitled to its removal or his duly authorized agent. Such request should identify the work by stating the title, author, copyright proprietor, registration number, and year of deposit, and should be addressed to the Copyright Office, Library of Congress, Washington, D.C., 20540.

L.C. card 6—35347

This number identifies the Library of Congress printed card for the complete series of the *Catalog of Copyright Entries*.

For sale by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C., 20402. Price of this part is given on page vi.

Preface

The CATALOG OF COPYRIGHT ENTRIES is published by authority of sections 210 and 211 of Title 17 of the *United States Code*. Section 210 provides in part: "The current catalog of copyright entries and the index volumes herein provided for shall be admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration."

The *Catalog* is subdivided into parts corresponding to the classes of material listed in section 5 of Title 17 of the *United States Code*. The table at the end of this preface shows the organization of the *Catalog*, the symbols used with the registration numbers to identify the classes, and the prices of the semiannual issues.

The record of each copyright registration listed in the *Catalog* includes a description of the work copyrighted and data relating to the copyright claim (the name of the copyright claimant as given in the application for registration, the copyright date, the copyright registration number, etc.).

Information as to changes of copyright ownership is not included in the *Catalog*, but a search of the Copyright Office Assignments and Related Documents Indexes may be requested from the Register of Copyrights. A fee for the search and report will be estimated at the statutory rate of \$3 per hour.

In the case of each registration listed, except for renewals, there has been deposited a copy or copies of the work in accordance with the provisions contained in section 12, 13, 14, or 215 of Title 17 of the *United States Code*.

For a more complete description of the contents of this issue of the *Catalog* see p. vii.

Orders, payable in advance, for all parts of the *Catalog of Copyright Entries* should be sent to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C., 20402. Orders may be placed for individual issues, as subscriptions for one or more parts, or for the complete *Catalog* at \$20 a year, and for periods of one, two, or three years. All orders should state clearly the title and the inclusive dates of the part wanted. Checks or money orders should be made payable to the Superintendent of Documents.

The Copyright Office welcomes inquiries, suggestions, and comments on the content and organization of the *Catalog*. Such communications should be addressed to the Chief of the Cataloging Division, Copyright Office, Library of Congress, Washington, D.C., 20540.

Organization of Parts

Each part listed in the following table records all current registrations in the class or classes indicated by the alphabetical symbols. Renewal registrations are listed separately at the end of each related part. The first letter of the symbol is that of the class under which registration is made; the second, if any, is a designation added by the Copyright Office for the purpose of statistical analysis. A zero immediately following the symbol, e.g., AF0, EF0, identifies a foreign work deposited under the waiver-of-fee provision (section 215 of Title 17 of the *United States Code*). Some parts also contain registrations made under other symbols if the subject matter or type of material is similar to that generally included in the part.

Current Registrations	111
Renewal Registrations	159
Area List	161
Publishers Directory	241

Introduction

PART 6 lists domestic and foreign maps, atlases, and other cartographic works registered in class F, together with similar works currently registered in other classes. Works for which the subsisting copyright has been renewed are listed separately in the Renewal Registrations section.

Arrangement is alphabetical under the name of the copyright claimant. Each work is described in a main entry which includes information pertinent to the copyright claim. References lead from the names of joint claimants, authors, and other contributors to the works, from the names of publishers, and from variant forms of names.

The Area List, arranged alphabetically by area, includes both currently registered works and renewal registrations, the latter being identified by the symbol R preceding the registration number. The Publishers Directory lists the publishers of current registrations together with the latest address for each as given in the application or the work.

Each main entry for works currently registered includes, in addition to the claimant's name under which it is filed, the following items of information if available and applicable:

- 1) Title, amplified if necessary by a brief identification of the area covered by the work, and followed by any variant titles.

- 2) Names of contributors to the work.
- 3) Edition statement.
- 4) Place of publication for all foreign works; for domestic atlases and plat books the place of publication if given in the imprint on the work, unless the work is entered under the name of the copyright claimant.
- 5) Name of the first-named publisher; when the publisher is also the claimant the name is omitted.
- 6) Physical description using terms descriptive of the work, including number of pages or volumes if applicable.
- 7) Series statement.
- 8) Scale, projection, and statements of insets and other supplementary maps.
- 9) Names of authors given in the application which do not appear elsewhere in the entry.
- 10) Name of the employer in the case of a work made for hire, if so named in the application.
- 11) Information contained in the application which relates to the registration of an earlier version of the work.
- 12) Brief statement of the new matter on which copyright is claimed, preceded by the abbreviation NM, if this information is given

in the application and is not already indicated in the entry.

- 13) Copyright symbol ©.
- 14) Name of the copyright claimant.
- 15) Date of publication as given in the application.
- 16) Registration number.

Whenever it is necessary to indicate a variation between the information given in the application and in the copy of the work with respect to the claimant's name or the date of publication, the data from the application are given first, followed by the phrase "in notice" and the data given in the work; e.g., © Richard Roe & Co.; 8Aug64 (in notice: 1963); F37000.

For renewal registrations, the main entry includes, in addition to the claimant's name under which it is filed, the following items of information if available and applicable:

- 1) Title, including area.

- 2) Names of contributors to the work.
- 3) Edition statement.
- 4) Brief statement of the new matter on which the original copyright was claimed, preceded by the abbreviation NM, if available in the renewal application.
- 5) Copyright symbol ©.
- 6) Date of original copyright.
- 7) Original registration number.
- 8) Name of the renewal claimant followed by a statement in parentheses, usually abbreviated, giving the basis of the renewal claim as supplied by the applicant; e.g., "John Doe & Co. (PWH)" indicates that renewal of copyright is claimed by John Doe & Co. as proprietor of copyright in a work made for hire.
- 9) Date of receipt of the renewal application or fee, whichever is later.
- 10) Renewal registration number.

Abbreviations and Symbols

The following list includes abbreviations and symbols used in this catalog with specific copyright or bibliographic meanings. Definitions are not given for abbreviations in common use.

(A)	author
a.a.d.o.	accepted alternative designation of
a.k.a.	also known as
appl.	application
©	copyright symbol
(C)	child or children of the deceased author
ca.	circa
comp.	compiled by, compiler
d.b.a.	doing business as
(E)	executor(s) of the author
ed.	edition, editor
(NK)	next of kin of the deceased author, there being no will

(NM)	new matter
p.	page(s)
(PCB)	proprietor of a work copyrighted by a corporate body otherwise than as assignee or licensee of the author
(PCW)	proprietor of the composite work
(PPW)	proprietor of the posthumous work
(PWH)	proprietor of copyright in a work made for hire
pseud.	pseudonym
pub.	published, publishing
(R)	renewal registration
rev.	revised
t.a.	trading as
tr.	translator
v., vol., vols.	volume, volumes
(W)	widow of the author
(Wr)	widower of the author

AREA LIST

A list of the current and renewal registrations in this issue arranged by area. It is designed to meet the needs of those who are searching for a map of a specific area. Renewal registrations are identified by the symbol R in the registration number.

The area headings consist of the names of the largest geographical or political units enclosed within the borders of the several maps. When the borders of a map do not coincide in any way with a single geographical or political unit, the name of the most significant unit contained therein is used in the heading. When a map contains three or more states comprising part of one of the geographical divisions of the United States, one of the headings which is given below in the list of "Geographical Divisions of the United States" is used. If the area shown on the map does not coincide with any of these divisions, one of the more generalized headings is used, e.g., United States, Northern. Names of rivers, lakes, and other geographical features are also included.

GEOGRAPHICAL DIVISIONS OF THE UNITED STATES

ATLANTIC SEABOARD

Connecticut
Delaware
Florida
